Description

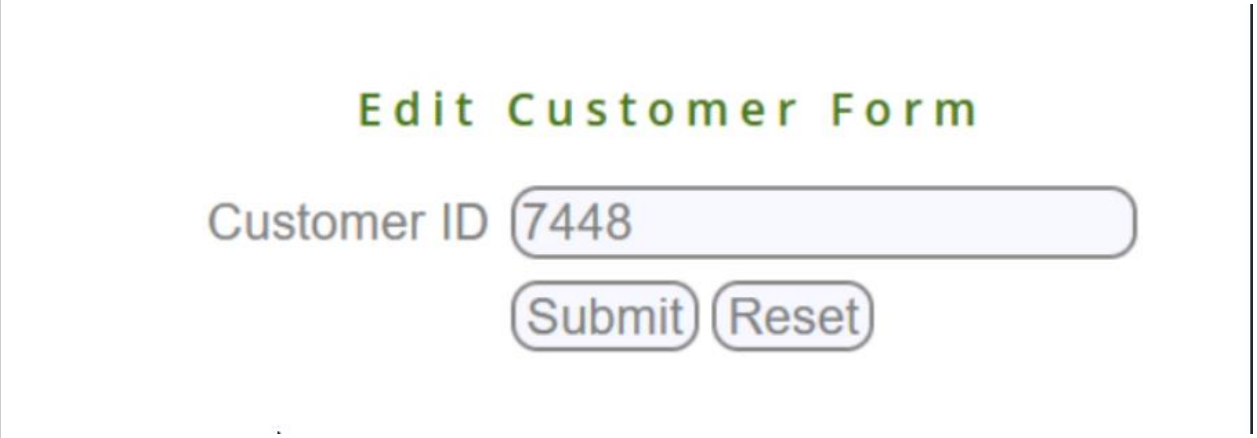
The edit Customer module will be used to edit an existing customer by ID.

A customer ID is mandatory.

This module will contain two pages: the first to introduce the Customer ID and the second to edit the customer form.

These 2 pages will look like this:

Page 1



Page 2

Customer Name, Gender, and Date of Birth fields cannot be edited.

The technical requirements for fields will be:

Edit Customer form (First page where ID is required):

1. Customer Id - Customer ID is required
2. Customer Id - Special characters are not allowed
3. Customer Id - Characters are not allowed
4. Customer Id - The first character can not have space

Edit Customer(The second page where the customer form can be edited)

1. Address - Address Field must not be blank
2. Address - First character can not have space
3. Address - Special characters are not allowed
4. City - Special character are not allowed
5. City - City Field must not be blank
6. City – Numbers are not allowed
7. City - First character can not have space
8. State – Numbers are not allowed
9. State - State must not be blank
10. State – Special characters are not allowed
11. State – First character cannot have space
12. Pin - Characters are not allowed
13. Pin - PIN Code must not be blank
14. Pin – Special characters are not allowed
15. Pin – PIN Code must have 6 Digits
16. Pin - First character cannot have space
17. Telephone Number – Mobile no must not be blank
18. Telephone Number – Special character are not allowed
19. Telephone Number – Character are not allowed
20. Telephone Number - First character cannot have space
21. Email : Email ID must not be blank
22. Email : Email ID is not valid
23. Email : First character cannot have space

Both pages will contain a Submit button and a Reset button.

The Reset button on the first page will clear the ID field and on the second page the entire form.
