Description

The Delete Customer module will be used to delete an existing customer by ID.

A customer ID is mandatory.

This module contains a field for customer ID, a Submit button, and a Reset button to delete the data from the Customer ID field

Delete Customer module is going to look like this:

Delete Customer Form

Customer ID

Submit Reset

The technical requirements for the field will be:

Customer Id - Customer ID is required

Customer Id - Special character are not allowed

Customer Id - Characters are not allowed

Customer Id - First character cannot have space
